Database Administrator

See Career One's advice articles, videos and resume building tool [here](#)

Database administrator (DBA) with extensive experience designing, coding, testing and supporting next-generation database solutions in Oracle enterprise and SQL Server environments. Proficient in an assortment of technologies, including Oracle 9i/10g, DB2, Access, Sybase, MS SQL Server, JDBC, Visio, Apache Web Server, Java, C++, XML, Windows and Linux (complete list on request).

DBA skills include:

Experience

ABC COMPANY, Sometown, NSW

9/2004 – Present

Database Administrator

Manage Oracle database administration assignments for diverse industry clients.

Enhance database performance, perform restores, implement recovery procedures, handle performance tuning and conduct regular system backups.

Ensure technical and functional designs meet business requirements.

Key projects:

- Served as DBA or project lead in the completion of 80+ medium- to large-scale implementations, managing projects from business requirements analysis to solutions delivery and support.
- Managed a \$1.2 million data-integration project for financial services firm that consolidated information from accounting applications, third-party market data and internal equities/fixed income applications.
- Contributed to furniture retailer's 15% revenue growth in 2007 by standardizing content from disparate databases, enabling sales and support staff to quickly respond to customer requests.

- Created Web-enabled, group-scheduling system for a large university, allowing students to view and print schedules for current and future semesters. Delivered solution on time, on spec and on budget.
- Developed and tested storage strategies and disaster-recovery plan for large manufacturing company's operational database, delivering solution that guaranteed recovery performance and high availability.
- Enhanced end users' understanding of database systems by conducting pre-implementation workshops, delivering group and individual training sessions and creating user-friendly training materials.

DEF COMPANY, Sometown, NSW

12/2003 – 5/2004

IT Internship

Selected for competitive internship with leading consulting firm. Developed functions, scripts and reports that were instrumental to the success of high-priority development projects.

Key projects:

- Developed approximately 25 custom financial and auditing reports using Crystal Reports with T-SQL, JDE Report Design Aid, MS Excel and Access.
